Notice to Residents:
Replacement of the bridge deck on Chemin de la Rivière-Blanche in Mayo

Summer 2026

START OF CONSTRUCTION

The Ministry of Transport and Sustainable Mobility informs you that work to replace the deck of the bridge located on Chemin de la Rivière-Blanche, over the Blanche River in Mayo, will begin on June 15 and continue through the end of July.

Once completed, the work will allow for the removal of weight restrictions on the structure and improve the driving experience for users.

Traffic Disruptions and Management

Due to the nature of the work, Chemin de la Rivière-Blanche will be completely closed to traffic on June 23 at the bridge. Users will therefore need to take a detour via Route 315 as well as Chemin Smallian, Chemin Burns, and Chemin de la Rivière-Blanche.

The Ministry is aware of the impact of this work, which is necessary to ensure the integrity and functionality of this road, and would like to thank users for their understanding.

For the safety of workers, it is essential to obey all posted signs.

For more information

For up-to-date information on traffic disruptions related to this project, visit **quebec511.info**. To submit a comment or request information, you can contact the Outaouais Regional Office by dialing 511 or visiting the page **Québec.ca/joindre-ministère-transports**.
